

Broadcast Email 2026 07 23

Dear Apollo Park Owners,

We wanted to give you an update on the Lunar Vail redevelopment matter.

After further discussions, Lunar Vail has decided to move forward with a north-only proposal to the Planning and Environmental Commission (PEC). In response, the Board has been evaluating the best path forward for Apollo Park and remains focused on protecting the interests of our ownership as this process continues.

We will be presenting Apollo Park's position directly at the next PEC hearing, scheduled for July 27.

This is an important opportunity to make our voice heard, and we strongly encourage owners to attend the hearing in person if you are able. A strong showing of support at the meeting itself can carry real weight with the Commission, in addition to the written comments and emails many of you have already sent.

It has been truly encouraging to see the overwhelming support for Apollo Park throughout this process, and we deeply appreciate the emails so many of you have sent on Apollo Park's behalf. That support has made a real difference, and we encourage you to continue voicing your support as we move forward. In person or online.

Please sign up to attend via zoom for July 27th at <https://www.vail.gov/government/boards-commissions-authority-district/planning-and-environmental-commission-pec>

Thank you, as always, for your patience and support.

Warm regards,

Harrison
